DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:

In the specification, page 1, line 4, "U.S. Patent No. X,XXX,XXX" should be replaced with a correct U.S. Patent number.

Appropriate correction is required.

Claim Objections

2. Claims 1-10 are objected to because of the following informalities:

Claim 1, lines 11-12 recites the limitation "determining an appropriate decompression ratio to apply to each variable compression ratio, fixed length data packet". It is unclear in the claim how the "variable compression ratio, fixed length data packet" is formed or generated. A phrase -- to form a variable compression ratio, fixed length data packet -- is suggested to be inserted after "the determined fixed length" on line 10 of the claim.

Appropriate correction is required.

Claims, depended on claim 1, are therefore also objected.

Allowable Subject Matter

- 3. Claims 11-22 are allowed.
- Claims 1-10 would be allowable if rewritten or amended to overcome the objection(s), set forth in this Office action.

Conclusion

5. This application is in condition for allowance except for the above formal matters. Application/Control Number: 10/676,491

Art Unit: 2611
